

## **New Business Location Partner at the Airport City: Kühne + Nagel Moves Company Headquarters to Vienna Airport**

**The Airport City at Vienna Airport continues to grow. The logistics services provider Kühne + Nagel has relocated its company headquarters for Austria to the airport. Some 120 employees will occupy office space of about 1,900 m<sup>2</sup>. The underlying reason for the decision was the proximity to the logistics facilities of the airport and the good infrastructure of the Airport City.**

“Due to its modern infrastructure, close proximity to Vienna and other transport connections to the neighboring countries of Eastern Europe, the new business location at Vienna Airport is the optimal place to further expand our activities”, says Franz Braunsberger, Managing Director of Kühne + Nagel’s Austrian subsidiary.

“With the addition of Kühne + Nagel, the Airport City has found a new business location partner, which is a further success for the airport as an economic driver and job creator. Companies profit from an attractive real estate offering with numerous useful services at one of the biggest traffic hubs in the region. This has already attracted considerable interest in the industry, as demonstrated by the latest business location project”, states Günther Ofner, Member of the Management Board of Flughafen Wien AG.

Kühne + Nagel was previously represented in the forwarding agent’s building at the airport in order to process its freight orders. Now the entire company headquarters is moving to the airport premises. On balance, about 120 employees will work on three floors, occupying some 1,900 m<sup>2</sup> of office space. Accordingly, Vienna Airport has added one more business location partner, strengthening its role as a flagship company for the entire region.

### **Real estate development as an important part of the airport strategy**

A key aspect of the business strategy of Vienna Airport is to develop the real estate site into a multifunctional airport city. Vienna Airport offers the optimal pre-requisites for business locations, featuring commercial space of more than 140,000 m<sup>2</sup>, office park facilities with about 84,000 m<sup>2</sup> of office and conferencing space, various local amenities and services such as supermarkets, a pharmacy, a fitness studio and much more as well as optimal traffic connections. Anyone potentially interested in the site can find more information at [www.airport-city.at](http://www.airport-city.at).

### **About Kühne + Nagel**

With more than 66,000 employees at around 1,000 locations in more than 100 countries, Kühne + Nagel ranks among the globally leading logistics service providers. The focus of its services is sea and air cargo, contract logistics and inland transport, with a clear orientation to high value-added business areas such as information-supported integrated logistics offerings,

Kühne + Nagel has a staff of approximately 500 employees working at 12 sites in Austria.
