Updated Guidance 2022

Based on the improved traffic development, the Flughafen Wien Group now expects for 2022 revenue of around € 670 million (previously € 640 million), a positive EBITDA of at least around € 290 million (previously € 260 million) and a positive net result of at least € 100 million (previously € 80 million). The update values are based on the assumption that no pandemic related lockdowns or major traffic restrictions will occur in autumn and winter. Capital expenditure will amount to around € 84 million. The today incalculable further development of the war in Ukraine and its consequences for aviation remain an additional factor of uncertainty.
