Exchange

- **Vienna Airport, Europe's 19th largest airport** with 31.72 million PAX in 2024 (31.66 million PAX in 2019)
- Vienna Airport Group consisting of **Vienna Airport, Malta Airport** and **Košice Airport**
- **Lufthansa hub**, home carrier **Austrian Airlines** (46% market share)
- Strong **growth of low-cost carriers** in recent years (approx. 30% market share)
- Focus on **intra-European routes**, important **transfer hub** to **Central/Eastern European** destinations (Austrian Airlines serves several SEE destinations exclusively), attractive long-haul routes
- **Large catchment area** (Eastern Austria as well as Czech Republic, Slovakia and Hungary)
- **Full-service provider**: Airport operations, ground handling, security service, infrastructure provider and commercial activities

Investment Case Vienna Airport share

Growth

- Trend growth – gradual increase in flight traffic & post-Covid recovery
- Non-aviation – expansion of retail & gastronomy, development of the AirportCity

Profitability

- Rise in the EBITDA margin to clearly above 40% (2024: 42.0%, 2023: 42.2%)
- Ownership of extensive properties and buildings required for operations

Dividend policy

- Complete elimination of debt, net liquidity of € 512 million in FY 2024
- Payout ratio of at least 60%

VIE-destination

- Incoming traffic: city tourism and congress hotspot, Vienna as a headquarters city
- Outgoing: prosperous Vienna Region, far-reaching catchment area

Quality

- Third most punctual European hub in 2024; many awards
- Strengthens the relative position of the home carrier Austrian Airlines within LHG

Sustainability

- CO₂-neutral operations of Vienna Airport since the start of 2023
- Own PV systems cover up to 50% of energy consumption at peak performance

Sustainable, long-term PAX growth

Trend growth and quick
recovery after
downturns

PAX European airports (millions)¹

- Constant and sustainable PAX **trend growth** in 2000-2019
- **CAGR** 2000-2019 of **4.7%**
- **Rapid recovery** after downturns (e.g., 9/11, recession 2008/09, Covid-19)
- In **2024** the pre-Covid level has been topped by **1.8%**

PAX Vienna Airport (millions)

- PAX growth at **Vienna Airport** was **above the European average** in the years 2000-2019
- Attractiveness of **Vienna** as a destination, prosperous **catchment area**, growth of **low-cost carriers**
- Sharper increase in **local passenger traffic** vs. transfer traffic

Long-term studies by Airbus & Boeing

forecast sustainable, longer-term passenger growth (horizon 2042)

- Global aircraft fleet should double by 2042 to approx. 48,600 aircraft (about +3.5% p.a.), whereby half of the aircraft delivered represent replacements or expansion investments
- Fleet expansion will be accompanied by **rising passenger volumes** (globally growing middle class), **investments in modern aircraft**, **growth of low-cost carriers** and increasing **demand for air cargo**
- The **Asia/Pacific region** accounts for more than **40%** of global demand (thereof approx. half from China), **Europe about 20%**
- Significant expansion of airport infrastructure in **China and India**

Aviation remains a growth sector

Travelling is very popular despite the poor economic situation

- Complete recovery from Covid-19 slump
- Revenue and EBITDA clearly above the pre-crisis level
- Positive business development based on passenger and traffic growth as well as rising non-aviation income
- Despite effects of environmental requirements (CO₂ pricing, taxes and duties, SAF blending) pushing up prices, medium and long-term growth of global and European flight traffic continues to be generally expected

Leveraging non-aviation potential

Terminal 3 Southern Expansion

- Enlargement of Terminal 3 by approx. 70,000 m² (“Southern Expansion”)
- Passengers await an **enhanced quality of their time at the airport** featuring greater **comfort, service** and a significant expansion of their **shopping and gastronomical experience**
- **Increased sales** thanks to significantly expanded shopping and catering experience
 - ➔ **Shopping & catering space** increases by approx. 50% to around 30,000 m²
 - ➔ **Tenant acquisition** already in full swing
 - ➔ Focus on **Austrian catering** as well as strong national and **international premium brands**
- New **centralised security checks**, new and **spacious lounge areas**, **additional gate areas**
- **Modern ambience**, more **comfort** thanks to more options for people to stay
- **Convenient connection between Terminals 3 and 2** (behind the security check)
- **Investment volume of € 420 million**, intensive construction phase is already underway
- planned **opening in 2027**

The AirportCity is growing quickly

Boom in business location projects – Expansion of Office Park 4

- The Vienna Airport site with 23,000 employees continues to be the biggest employer in the Eastern Region of Austria
- Ongoing strong interest in office and operating premises in the AirportCity
- Expansion of Office Park 4 by 17,000 m²
- TUI Austria is relocating its corporate headquarters to the AirportCity
- Austria's largest logistics park covering 80,000 m² to commence operations
- New “Vienna House Easy” hotel with 510 rooms to open in autumn
- ‘VIE Space Hub’ as a home base for the Austrian space industry: high-tech company Enpulsion expands production at AirportCity, 3 more space technology companies confirmed to settle here

Tariff regulations

Competitive tariff and incentive system

- Price cap of the adjustments to charges and the methodology of the adjustments are regulated by the **Airport Charges Act (FEG)**
- Temporary **suspension of the tariff formula** (function of PAX growth and inflation) due to Covid-19 related distortions since 2020 (until 2026), **adjustment** of airport charges **by average inflation** (calculated from 1 August - 31 July)
- **Increases in passenger, landing and infrastructure charges of 4.6% in 2025**
- An **earlier return** to the existing tariff formula is envisaged if the 3-year average traffic volume (passengers, MTOW, fuel volume) exceeds that of the 2016-2019 period
- **Formula for determining airport charges**
Maximum authorized change = $-0.35 \times 3\text{-year average traffic growth} + \text{inflation}$
(Period under review 1 August - 31 July)
- **Incentives:** destination, volume, long-haul, transfer-security, cargo incentives

Ownership of property and buildings

Contributes to a higher enterprise value

- Flughafen Wien AG is the owner of all **properties** (about 1,080 hectares), the buildings enabling airport operations as well as the main **car parks, business premises and office buildings**
- **No concession fees** in contrast to many other privatised airports
- **Development of the landbank** (AirportCity) to enhance enterprise value
- High demand for **logistics spaces and industrial plots**, eastward **urban development possibility** for Vienna

Elimination of debt

Leads to a positive financial result

- **Net liquidity** at € 512 million in 2024 (FY 23: € 362 million)
- Comfortable **financial leeway** for investments and **attractive dividends**
- **Payout ratio** of “at least 60%”
- High **equity ratio** of around **70%**
- **Repayment of EIB loan** in Q4/23
- Clearly **improved financial result** due to **higher interest income** (increased level of investments)

Strong balance sheet structure

Perceptible increase in equity

- Increase in current assets due to increase in net liquidity (investments, for the most part time deposits)
- € 286 million in **additional equity** since 2019 (€ 246 million attributable to the parent company)

Dividend increase to € 1.65 per share in 2024

Shareholders and employees participate in the company's success

- Dividend proposal of € 1.65 per share for 2024, (€ 1.32 in 2023), corresponds to around two thirds of the net profit
- Total dividend distribution in the amount of **€ 138.4 million**
- Dividend proposal represents a **dividend yield of 3.2%¹**
- Flughafen Wien AG employees also benefit from the good business development **via the employee foundation** (holds 10% of FWAG shares)

Incoming traffic to the destination of Vienna

Tourism hotspot and congress city

- Vienna is among the top 10 tourist cities in Europe (#9 in 2024)
- 8.2 million arrivals in 2024, +10% compared to 2023
- 18.9 million overnight stays in 2024
 - ➔ +9% compared to 2023 and around 7% above the comparable period in 2019
 - ➔ Airplane preferred means of travel (39% of all travelers)
- About 82% of guests are **foreign guests**¹ (DE, US, IT, UK, ES, FR)
- **Annual growth** of guest arrivals in the period 2006-2019 of 5.3% p.a. (CAGR)
- Vienna is consistently **ranked among the world's most livable cities**
 - ➔ #1 for the 4th time by The Economist, #2 by Mercer
- **Vienna is a congress metropolis** and is one of the world's most popular event locations
 - ➔ 183 congresses in 2024, 2nd place in the UIA congress ranking and 3rd place at ICCA
 - ➔ Vienna is particularly popular for medical congresses

Incoming traffic to the destination of Vienna

International organisations and headquarters

- More than 50 international organizations, about 140 embassies and 199 multilateral representations¹ are located in Vienna

- Vienna is the regional **headquarters destination** of over 200 multinational companies², primarily for Central and Eastern Europe; the three most important countries of origin are Germany, USA and Switzerland

Quality

Sustained top performance in the Lufthansa Group, clearly ahead of Munich, Zurich and Frankfurt

Supports the relative position of Austrian Airlines; promotes the attractiveness of Vienna as an airline destination

Ongoing good punctuality in 2024 (top 15)

- **Everything under one roof:** Vienna Airport carries out key services itself such as ramp handling or via its own subsidiaries such as ramp handling or security checks (VIE handling market share of 81% in 2024).

CO₂ neutral airport operations

Sustainability as the basis for successful and responsible actions

- Since January 2023, **CO₂-neutral operation of Vienna Airport** according to the definition of the Airport Carbon Accreditation Scheme (ACAS, Level 3+) of the Airport Council International (ACI); the remaining CO₂ emissions are offset via Climate Austria
- **PV facilities, CO₂-neutral geothermal energy and district heat, e-mobility, new technologies for building control and countless other measures** to improve energy efficiency have enabled the airport to steadily reduce CO₂ emissions
 - ➔ CO₂ emissions reduction from 46,081 t in 2011 to 9,847 t in 2024
- **Own PV systems cover up to 50% of energy consumption** at peak performance
 - ➔ production of 41 million KWh of electricity over an area of 46 hectares by **78,000 solar panels**
 - ➔ **Reducing energy costs and securing the energy supply**
- **External certifications:** ACAS Level 3+, EMAS, ISO 14001
- **Sustainable Aviation Fuels (SAFs) are the biggest decarbonization lever in the aviation industry**
 - ➔ FWAG will provide the necessary infrastructure for airlines
 - ➔ SAF quotation to rise: 2% from 2025, 6% from 2030, 20% from 2035 and 70% from 2050

Cargo – VIE a modern cargo hub

Good geographical location and high-quality service are the decisive factors

- Significant increase in cargo volume of 21.6% to 297,945 tonnes in 2024 (+5.0% vs. 2019) – belly freight with +43.8% vs.2023, strong growth of imports and exports - transit hub for e-commerce
- Strong customer base: automotive, electronics and mechanical engineering industries in Austria and neighboring countries
- Dense and reliable road feeder network to European hubs and especially into CEE (incl. Balkans, Poland, Baltic States, etc.)
- A total of 38 cargo flights per week - over 80% market share for VIE Handling
- Pharmaceutical handling center with seamless cool chain (incl. cool trailer transport on the apron) guarantees high quality
- Lufthansa Cargo extends handling contract for another four years
- Strengthened positioning as cargo hub to Asia: Co-operations with Incheon Airport and Korean Air

- **New airlines and destinations in the summer flight schedule:** Scoot new to Singapore, new destinations for Austrian Airlines, Ryanair, Wizz Air, easyJet, Saudia and Air Albania, Condor stations one aircraft in Vienna
- **Uncertain economic outlook** for 2025; ongoing **supply bottlenecks for aircraft** burden global capacity growth
- Development of the **conflicts in Ukraine and Israel** is of particular importance for traffic figures
- **Growth in winter flight schedule 2024/25**, slight capacity increase in the summer, capacity utilisation as a factor of uncertainty

Growth in all divisions in 2024

Good traffic momentum and positive financial result as profit drivers

€ million	2024	2023	Δ

Depreciation and amortisation	-135.8	-131.8	3.1%
EBITDA margin	42.0%	42.2%	
EBIT margin	29.1%	28.1%	

- **Strong rise in personnel expenses** related to the **growing number of employees** (+263 FTE, total of 5,337; caused by the increase in passenger volume, flight movements and expanded construction work) **as well as higher salary increases mandated by collective bargaining agreements** (+7.0% as of May 2024)
- **Substantial rise in other operating expenses** due to extensive **maintenance work** (runways, technology, Malta Airport) and costs of € 23.9 million for the noise protection programme in Q4/2024
- **Disproportionately low increase in the cost of materials and services used** – slight drop in energy costs due to partial in-house power generation from own photovoltaic facilities

Cash flow & equity

Net liquidity	511.6	361.9	41.4%
Equity	1,667.2	1,556.4	7.1%
Equity ratio	69.5	70.9	

- **High cash flow from operating activities of € 443.7 million** due to the good operating development; decline in the free cash flow related to higher level of capital expenditure and new financial investments
- **Substantial growth in capital expenditures:** Start of the intensive construction phase of the Terminal 3 Southern Expansion (€ 73.4 million in 2024) and investment projects in Malta
- **Rise in net liquidity (€ 511.6 million)** provides financial leeway for large investment projects
- Ongoing very robust **equity ratio of close to 70%**
